Problems/Solutions	
In My Opinion	
Interesting Information and/or Timeline	

### **Directions for Assembling the Book:**

Use three sheets of computer paper. Holding them together vertically, fan the sheets out, placing one on top of the other, approximately 3/4 inch apart, from the bottom of each sheet. Hold them in that fanned position, and fold down all three papers from the top, so there are equal sized sections. You should end up with a wider title page on top and five sections below. Place two staples on the fold line using a special long-reach stapler.

**Book Information to be Included:** Label the page edges (see picture above).

**Title Page** (top section): Include the title of the book, the author, your name and date, and the genre of the story. Draw a picture to represent the title of the book.

**Setting:** Tell where and when the story took place. Include any details to help the reader learn about the time period and setting.

**Characters:** Tell all about the main characters, who they were, and a little bit about them. Are they related? Did anyone do anything interesting, special, or courageous? Draw sketches of the characters.

**Problems and Solutions:** Choose four problems from the story and the solutions to each problem and tell about them. You can put two problems in each section. Include a sketch if it helps the explanation.

**In My Opinion:** Give your opinions about the book, the character, problems and solutions, etc. Is this a book you would recommend to someone? What makes you feel that way? Give facts from the text to support your opinions.

**Interesting Information or Timeline:** In this section tell interesting things you learned from your book. You can draw or create a timeline of events if it is appropriate to the story you read.

*Be creative! Use color, special lettering, add your own personal touches and make this project something you are proud of! Neatly print the text. You may also use the computer to word process the text. Clipart use is also acceptable.*
